

Pre-Calculus Honors Summer Work

Your Pre-Calculus Honors summer work is meant to help you to review your math skills up to this point and to prepare you for the SAT. To complete this work, you will need to have an active College Board account.

1) Log in to the Pre-Calculus Khan Academy account.

<https://www.khanacademy.org/join/9P4B79CJ>

2) Link your College Board account and share your PSAT information with me. (I will not see your scores.)

3) Spend 360 minutes working on the Khan Academy SAT practice between now and the start of school. You will be assigned sections depending on your skills. Some sections are timed, and some are not. When school begins, each of you will meet with me to privately discuss your progress. It is possible to stare at the screen for 360 minutes; but I will be analyzing how you spent your time. We will come to a numerical agreement that will be your first test grade of the year. You may work more than 360 minutes if you wish. (If you work 45-60 minutes per week for the rest of the summer then you should meet the time requirement.) You can check your progress by clicking on your name in the top right corner and selecting “progress”.
