

AP Biology 2021-2022 Summer Assignment

We have a great amount of material to cover this year. There will be a test over the first 5 chapters of your textbook, *AP Edition Campbell Biology* 11th Edition, by Campbell and Reece, Pearson/Benjamin Cummings publishers ISBN 13:978-0134433691 (11th Edition). This is the textbook only.

To prepare for this test you will need to read the first 5 chapters. Chapter 1 is an overview of an approach to the study of Biology. Chapters 2 through 5 cover the chemistry of life.

For each chapter there is a self-quiz in your textbook. You need to answer these questions for each of the 5 chapters. These should be typed with complete sentences. Your name should be on the top right hand corner of each page and the chapter the questions pertain to.

Also for each chapter there are questions in your *Study Guide For Biology* 11th Edition, Campbell and Reece, Pearson/Benjamin Cummings publishers, ISBN 13: 978-0134443775 (2017) titled "Test Your Knowledge". These are to be answered. You can answer in the books and turn them in or you can type out the questions and answers.

All of the questions are due the first day of class. The test will be the fourth day of class. If you have questions regarding the first 5 chapters, you can e-mail me.

Have a great summer!

Mrs. Cullen
